

EQUIPMENT

BAROID IDP MIXING SYSTEMS

M-1500 Mixing System

Dual Tank Design

Powered by

18 HP Subaru Robin Gas or 22 HP Yanmar Diesel

Driven by 4" Gorman Rupp Pump

M-750 Mixing System

Single Tank Design

Powered by

18 HP Subaru Robin Gas or 22 HP Yanmar Diesel

Driven by 4" Gorman Rupp Pump

M-300 Mixing System

Single Tank Design

Powered by

9 HP Subaru Robin Gas or 9 HP Yanmar Diesel

Driven by 3" Gorman Rupp Pump

M4 Mixer

Powered by

18 HP Subaru Robin Gas or 22 HP Yanmar Diesel

Driven by 4" Gorman Rupp Pump

M3 Mixer

Powered by

9 HP Subaru Robin Gas or 9 HP Yanmar Diesel

Driven by 3" Gorman Rupp Pump

M2 Mixer

Powered by

9 HP Subaru Robin Gas or 9 HP Yanmar Diesel

Driven by 2" Gorman Rupp Pump

Baroid Industrial Drilling Products Proudly Offers a Professional Line of Mixing Equipment

A complete line of professional mixers and mixing systems are now available from Baroid IDP.

The new line of mixing equipment complements Baroid IDP's comprehensive fluid solutions to deliver improved drilling performance. You can expect faster yields and optimized hydration.

Featuring an effective shearing system, Baroid IDP's mixing equipment will help improve performance on your next job.

M-750 Mixer

140" L x 92" W x 75" H

2450 - 3025 lbs.

39" high

4" IDP mixing system

750 gallon roto-mold polyethylene

5" steel channel, welded

Electric start, air cooled

4 power options available

4" cast iron centrifugal trash pump

Direct coupled engine & pump

Self pressurizing grease seal

Hardened plate ahead of impeller

15 gal. steel c/w sight gauge

Bolt & snap-groove type

Hopper maintenance wand

Bottom tank drain supplied

Benefits

Designed to save space on job site

Fits any 8' flat deck

Great weight distribution for easy transportation

Low impact on physical demands

Effective shearing ability for powerful results

Upkeep is very minimal

Built to withstand the construction trade

Industrial rated for reliable performance

Gorman-Rupp 80 series for extended service life

Minimal maintenance required

High sealing power for optimized performance

Replaceable parts to ensure long product life

Large fuel capacity

Quick system draining even in cold weather

Convenient and fast cleanup

Quick tank drainage even in cold weather

This mixing unit is capable of providing 750 gallons of yielded fluid for your drill rig in minimal time. The unit can be transported to the job site in a standard 8' pickup box.

Available in 22 hp Diesel (M-750D), 20 hp Electric (M-750E), 18 hp Gas (M-750G) and Hydraulic (M-750H) models.
